A yellow hedgehog is shown in profile, standing on a grey, textured ledge. The hedgehog has a black nose, a single black eye with a white pupil, and its back is covered in brown and teal triangular spines. Its front legs are raised as if it is about to jump or climb over the ledge. To the left of the hedgehog, a vertical ruler is visible, with markings from 1 to 15 cm. The hedgehog's back reaches the 15 cm mark on the ruler.

Igel können
nur 15 cm hohe
Hindernisse
überqueren

Igel brauchen
mindestens 10 cm breite und
10 cm hohe Durchgänge
